## **NIRSPEC Optics Application Note 0.00**

## Introduction

This document, which will be updated as the implementation of NIRSPEC progresses, lists the other application notes and their topics, version numbers and dates. Whenever one of us writes or revises one of the application documents, this one should be updated. See Sam or George for the location of the file.

The filename should reflect the version number as well as the document number. For instance NOAN0201 is NIRSPEC optics application note 2, version 1. **Do not** delete old versions when you create new ones. The first (draft) version of any document is version 00, followed by version 01. This will let us have 99 versions of 99 documents of each design category.

Filename	Subject	Ver	Rev date	Author
NOAN0100	Calibration Unit Lens Design	00	9/14/98	SBL
NOAN0200	Installation of Guider Mirrors	00	9/17/98	SBL
