NIRSPEC Software Programming Note 0.00

Index

This document, which will be updated as the implementation of the NIRSPEC software progresses, lists the other programming notes and their topics, version numbers and dates. Whenever one of us writes or revises one of the programming documents, this one should be updated. See George for the location of the file.

The filename should reflect the version number as well as the document number. For instance NSPN0201 is software programming note 2, version 1. **Do not** delete old versions when you create new ones. The first (draft) version of any document is version 00, followed by version 01.

Filename	Subject	Ver	Rev date	Author
NSPN0000	Index	00	03-26-98	GB
NSPN0100	Software overview	00	05-15-97	TL
